The **August** meeting of the Zia Rifle & Pistol Club is scheduled for **Thursday, August 17th** at 7:00 PM at **Bear Canyon Senior Center, 4656 Pitt NE**. All members are welcome and encouraged to attend. If there is anything you would like to discuss, please contact Secretary, Chris Garrett.

*See you there!*

## Zia BOD Meeting Minutes from June 15, 2023

The June 15, 2023 BOD meeting was called to order at 7:02 p.m. at the Bear Canyon Senior Center, with Club President Pat Mileschosky presiding. A quorum of the BOD was achieved with 12 out of 20 members in attendance.

### Item I - Approval of Agenda and Minutes

The agenda for the June 2023 meeting was approved with one addition from First VP Heidi Chowning. The minutes from the May 18, 2023 BOD meeting were approved without changes.

### Item II - Treasurer's report

Sharon Foreman, Treasurer presented the Treasurer's Report. She reported on the financial health of the Club, informed us of the various activities of the Club accounting firm which include 2022 taxes and completing setup of Quickbooks, and described some banking changes. Then Sharon passed out 2024 budget worksheets to the Activity Chairs, had a discussion about the form and expectations, and asked for each Activity to provide a completed worksheet at the July meeting.

### Item III - Old Business

**Heidi Chowning:** Update on Club-sponsored training. Seven directors and regular participants of Action Handgun completed a USPSA Range Officer Course and will be certified upon passing of the final exam. The Trauma First Aid classes are in July and the attendance list is nearly finalized. The NRA Range Safety course is scheduled for August 27.

**Pat Mileschosky:** Lease renewal update. Pat and Heidi went to Santa Fe and had a very positive experience at the State Land Office. We are very close to getting a new 5 year lease for the range property. The Land Office requested an updated list of the range improvements, a site visit, and a new survey. Once these items have been completed, we should be getting the lease renewed.

### Item IV - New Business

**Pat Mileschosky:** Pat requested \$350 to purchase 8 concrete parking bumpers to enable the 600 yard rifle Activity to set up more shooting lanes as their attendance has grown. A motion was made, seconded, and passed.

### Item V - Adjourn

After discussing all the items on the agenda, and there being no further business, the meeting was adjourned at 7:41 p.m. The next BOD meeting will be held on July 20, 2023 starting at 7:00 p.m. at the Bear Canyon Senior Center, 4656 Pitt NE.

## Zia Member Spotlight

Pat Mileshosky

*Beginning this month, the Zia Newsletter will be spotlighting a club member each month. This is the idea of Club V.P., Heidi Chowning. She hopes you will enjoy getting to know your fellow members a little better. And who better to be our first Member Spotlight, than our own Club President, Pat Mileshosky!*

Pat figures he started shooting when he was about 15 or 16 years old and “wanted to start hunting with my father.” His father bought him a military surplus British 303 rifle, steel butt plate and all. “That gun always left my shoulder bruised and beaten”, he says. “We would shoot it in the mesa where the intersection of Gibson, then Miles Road, and Yale is now.”

Pat has been a member of Zia for about thirty years. And when asked why he joined Zia he said: “I bought a Beretta 92FS many years ago and went out to the city range to shoot it with my son. We set up on a bench away from the rifle shooters and were immediately herded back next to a gentleman who was shooting an AK 47. Trying to shoot while being pelted with hot brass was a bit disconcerting to say the least, so we sat back to wait until he was finished shooting. We were told that if we were not going to shoot we would have to leave. So we started shooting while he was reloading. The last straw was when I was told I could not pick up my brass, when it hit the ground it became the property of the city range. I went off on the range officer who backed off and walked away. I joined Zia the next week.”

When asked what he liked most about Zia, “the shooting of course, but then there are the members... great people!” He also mentioned the fact that Zia is twenty minutes from his house as being a plus, especially now with as much time as he spends at Zia, “as chief cook and bottle washer”.

Among other things, Pat participates monthly in the 600 yard match and the ARA rimfire benchrest 50 yard match at Zia. “From one extreme to another”, he says. “A 105 grain bullet at 2900 feet per second to a 40 grain bullet at 1150 feet per second. Both are money pits!” The guns he likes shooting the most? “My Kelbly 6mm Dasher. Long range shooting, 600 yards, has always piqued my interest.” He goes on, asking the question, “how do people shoot small groups, 4”x4”, at 600 yards?”

When shooting for fun, Pat enjoys shooting with Paul Pitz. “Paul has a great sense of humor, easy to have a fun time with while shooting, lots of laughs.” But when practicing, he prefers to shoot alone, “so I am not spending my time carrying on and yucking it up with somebody else”, he says.

“Given the political climate of the nation and our state,” Pat says staying open is at the top of the list of things for Zia to work on in the future. “Providing the members an organized safe place to shoot” is second on that list. He also says that we are always looking for new shooting activities, which come and go. “Lots of suggestions but nobody to run them, so they fall by the wayside.” As far as shooting lessons go, Pat really couldn’t think of anyone he would take a class with. “I guess it’s true...you can’t teach an old dog new tricks!”

And finally we wanted to know what is something interesting about Pat that’s completely unrelated to shooting. His answer: “I miss Jerry Bridges” was all he said.

Thank you Pat!

## THE FIRECRACKER 40 RESULTS Small Bore Rifle Silhouette Match July 2, 2023

Pictures top row: Jerry C. match winner 1/2 scale targets, David B. match winner of 1/5 scale targets.

Bottom row: Sid G. five in a row rams, Tyra Mc. five in a row turkeys and chickens.

(Note: if you win the match you may wear the crown and winners of milestone “in a row pins”, get to wear a tiara only for the photo op! all in good fun)

This was our first annual Firecracker 40 and everyone had a great time. There was great competition and great food. The overall match winner in the 1/2 scale targets was Jerry C. This was a personal best for him. Well-deserved and long overdue. The overall winner in the 1/5 scale targets was David B. with 20! If you are unfamiliar with the size of these targets, for the chickens that are set at 44 yards, it's like shooting at a matchbook cover and it only gets harder from there! Well done gentlemen!

After the match we all enjoyed a summertime pot luck, complete with paella, pulled pork sandwiches, French fries, watermelon and apple pie. There were also many other delicious dishes to feast on as well. So much food, so little time.

The pictures below are evidence of the good times that we had. Even the club president, Pat Mileschosky stopped by for a visit.

### ½ size target results

Please note the 5 and 10 in a row winners as indicated in the score table.

COMPETITORS NAME	CHICKEN	PIG	TURKEY	RAM	TOTAL	CLASS
JERRY C.	9/5	9/5	8/5	7	33	AAA
TOM F.	6	9/5	7	9/5	31	M
JOHN B.	5	9/5	7	9/5	30	AAA
JOHN B.	5	9/5	7	9/5	30	AAA
GARY B.	7	8	6	9/5	30	A
TYRA MC.	9/5	7	8/5	6	30	A
DENNIS B.	7	7	4	7	27	AA
SID G.	6	6	6	9/5	27	AAA
SHARON F.	6	9/5	6	5	26	M
FREDDY M.	8/5	5	7	5	25	AA
BILL S.	4	5	7	6	22	AA
TED MC.	6	6	3	7	22	AA
DAVID O.	5	6	3	4	18	A
JOHN R.	5	6	4	3	18	A
LUCINDA S.	3	2	1	5	9	B

Highlighted scores indicate class winner

Jerry C. won overall

The matrix for this class structure is:

Master 34 40  
 AAA 28 33  
 AA 21 27  
 A 15 20  
 B 0 14

This class structure has no bearing on any classifications or qualifications outside of this specific match. The purpose is to allow everyone a fair chance at competition and provide a structure for advancement. The way you advance to the next level is to shoot 3 subsequent scores within the higher range(s). New shooters will shoot "unclassified" and once a score is recorded, that will be the class in which they will shoot until higher scores move them "up".

### 1/5 size target results

DAVID B.	5	5	6	4	20	1 <sup>st</sup> PLACE
TOM F.	6	1	1	3	11	3rd PLACE
FREDDY M.	4	4	1	2	11	
BILL S.	4	3	2	2	11	2nd PLACE
JERRY C.	2	3	3	2	10	
TYRA MC.	3	1	2	3	9	
SID G.	4	0	2	2	8	
DENNIS B.	3	2	1	1	7	

Continued from previous page

David B. won overall in the 1/5 scale targets with a score of 20. 2nd and 3<sup>rd</sup> place tied with 11. Bill S. placed 2<sup>nd</sup> as he shot 2 turkeys to Tom F.'s one. Then Tom was awarded 3<sup>rd</sup> place because he shot one more ram than Freddy M. did. Whew!

Small Bore Silhouette shooting is one of the most challenging sports for individual marksmanship. Many great shooting competitions offer challenging shots at long range from a bench or other supported position. All our shooting is done from a standing position swaying in whatever breeze there happens to be. We shoot 10 chickens at 40 meters, 10 pigs at 60 meters, 10 turkeys at 77 meters, and 10 rams at 100 meters. A total of 40 rounds are needed for a match plus sight in rounds.

We shoot with .22 rim fire rifles with scopes or open sights. Any standard velocity or high velocity .22 short, long, or long rifle ammo is permitted but the extra hot rounds such as the STINGER or VIPER rounds and magnums are prohibited.

The following information taken from the NRA Silhouette Rifle Rule book and explains the match time sequencing:

Time is not checked on each shot but is computed on the indicated allowance for each five-shot string. The Range Officer may terminate any relay before completion of the full time allowance, if all competitors in that relay have completed firing.

Time Allowances:

**Ready Time** - Fifteen seconds will be allowed after the command **READY** is given before the command **FIRE**.

Two and one half minutes will be allowed to fire one shot on each target of a bank of five targets. Targets are shot in sequential order from left to right.

**Alibis** - 30 seconds will be allowed for each unfired round of the series in which the alibi is allowed.

**Shoot-offs** - 30 seconds will be allowed for each shot fired in a shoot off of ties.

A minimum of 30 seconds will be allowed between the command **CEASE FIRE** and **READY**.

The small bore rifle silhouette match is held on the first Sunday of each month.

Setup starts at 8:00am. We will have a sight in/practice period starting after set up and will start the match promptly at 9:00am.

This event is open to any Zia member/guest and all are welcome. Juniors are encouraged to try this fun and challenging shooting sport.

**The adjacent bench rest/plinking range to the immediate West of the Small Bore Rifle Silhouette Range will be closed for the duration of our matches. This will allow us to provide participants with a higher level of safety. Please note: Although the posted sign states that the range will be closed from 8:00am 2:00pm, as soon as the small bore rifle silhouette match is over, the adjacent range will be open to the public. Historically our matches run no later than noon.**

## Results of the Bench Rest Rifle Silhouette Match July 9, 2023

Pictures from left to right: CZ.457 MTR, Ron B. and his BRNO, Daughter and Father Team Lincoln, Spotters on the line, Bryan B. spotting for Kevin B., Steve S. shooting t pigs.

Hello to all. Thanks for coming out and making this particular event one of the largest we have had for participation. 18 shooters!! Weather being rather good, with just a little bit of wind in the afternoon, we saw Tom O. work his voodoo for a total of 36. Followed by Bryan B. with 34 and rounding out the top 3 was Tom F. with 32. There were numerous 26s and 27s, but again you are shooting against yourself. That is the beauty of this sport. Hopefully the hot weather will have passed by the time the August match comes around. Hope to see all of you then!

I encourage anyone with a .22 rifle to come out and give this a try! Most folks that have are hooked now.

If you have any questions, please call or text Tom 505-350-4026

ERICK L.	5	2	2	3	12

The bench rest rifle silhouette (formerly known as “Mouse Gun”) match is held on the second Sunday of each month.

For those of you that are wondering what we do...

We take a scoped .22 rifle that has plenty of elevation adjustment and shoots long rifle ammo (**no stingers or hyper velocity**) and we shoot at 1/5 scale targets, whereas the chickens are set a 60 meters and are roughly 2”x2” in size. The pigs which are roughly 3”x4” are set at 100 meters, the turkeys, roughly 3”x5” tall are set at 150, and the rams 6”x4” are at 200 meters. All you need is a sand bag, maybe a bipod, or perhaps a fancy bench rest rig, it doesn't matter as any type of rest is allowed. At the onset of each 15 minute relay, there are unlimited “sighters” at the beginning sighters being shots that are fired at a 8”x11” steel plate set at the same distance at each of the targets. When you are pretty sure that your rifle is sighted in good enough for that bay of targets, the “sighters” stop and you shoot 10 shots in left to right order in what is remaining of the 15 minute time allotment for score.

Relays consist of 10 chickens at 60 meters, 10 pigs at 100 meters, 10 turkeys at 150 meters, and 10 rams at 200 meters. This all done while sitting at a bench. It is a relaxed atmosphere and a ton of fun! A total of 40 rounds are needed for a match plus “sighters”.

Setup starts at 7:30 am. We will have a sight in/practice period starting after set up if possible, and will start the match promptly at 8:00am.

Thanks for coming out and enduring the heat wave shoot!  
Special thanks to those who came early and stayed late to help. We can still use more help, so any of you who are interested in helping on a regular or semi-regular basis in exchange for having your entry fee waived, please email me and let me know.

I am in agreement with the majority vote to use earlier starting times for Summer, and later for Winter. It looks like the best approach will be to delay implementation of this idea until we are ready for Winter hours.

See you next month,  
Lyn

## Zia R&P Range Where Champions Train

In July eight Single Action Shooting Society (SASS) members from New Mexico competed in the Utah State SASS Championship. One was from Farmington and the rest from the Albuquerque Metro area. Three shoot at Zia. All eight shooters were first place winners in main or side match competitions. Terri Galpin was the top, overall lady shooter. This shows the Southwest region that New Mexico shooters compete at the highest level. Of the Zia shooters, Terry Kissinger won a side match using cap and ball revolvers and a single shot rifle. He was also the best dressed man at the awards banquet. Ted Simmons won a black powder main match category using large bore firearms. Ted's wife Anara won the main match lady's black powder category. She

is having a great year so far having placed third in that category at the international competition in Phoenix, winning the category at the Four Corners Regional Match in April, and winning the category at both Kansas State and most recently Utah State. Ted and Anara practice before major matches at Zia. Ted and Anara's next competitions are the New Mexico State match to be held at the ABQ City Range in September and then Arizona State in October in Tombstone.

**Anara Simmons aka  
"Doc Barium"**

When one drives through the Zia range there are often action shooters practicing in the berms. Zia offers flexible practice that helps our members compete well elsewhere. It is a unique range for the ABQ Metro Area.

# **New Mexico Legislature**

The legislature has started preparing for 2024's session. Despite 2024 being a 30 day budget session, the governor has said that she plans to add "gun violence" issues to the call, so we will see legislation from this year return.

Last week, a joint House and Senate Interim Committee held a hearing on firearms related issues. The hearing was chaired by Senator Cervantes, and was attended by a number of state senators and representatives. Senator Ivey-Soto and a staff attorney from the Senate Judiciary Committee were the primary presenters.

The hearing opened with an acknowledgement from those present in the gun control caucus that the Second Amendment confers an individual right to arms. Despite this, members of the panel opined that there was still significant space available for gun control legislation, even post-Bruen, despite a reasonably accurate briefing on the history of the right to arms from the staff attorney.

Members of the gun control caucus then engaged in a somewhat accurate discussion of Supreme Court jurisprudence on the Second Amendment, interspersed with heavy whining about the court's reasoning on the issue. Disturbingly, some suggested that the Bruen concurrences somehow made the opinion a plurality opinion, and that dicta in the concurrences somehow invalidated parts of the holding they found especially distasteful. The panel also briefly discussed the granting of certiorari in *United States v. Rahimi* by SCOTUS in its next session, which will deal with 18 U.S.C 922(g) questions on the constitutionality of "prohibited persons" and firearms ownership.

The panel opined, likely correctly, that *Rahimi*, which specifically deals with 18 U.S.C 922(g)(8), will expand into a broader constitutional attack on 922(g) generally in the near future. The 1934 National Firearms Act and 1968 Gun Control Act are also anticipated to face challenges in the future. Certain members of the panel still have yet to internalize the test laid out in Bruen, and, despite being attorneys or professors of law, are unclear on the "text, history, and tradition" standard and what a "historically analogous" restriction on the right to arms would actually entail. More informed members of the gun control caucus admitted the difficult nature of enacting gun control that the state would manage to sustain in a post-Bruen world.

The panel then pivoted to a discussion of what would actually get done and be expected in a 30 day session. The gun control caucus laid out, at this point, what seems to be their primary legislative plan. Due to what they perceive as "uncertainty" generated by Bruen, they intend to legislate forward to define the space. What this can be read as, in our opinion, is that they intend to copy other states' Bruen responses and generally ignore the court as much as possible to provide cover for savvy actors to develop creative attacks on the right to arms and the firearms industry. The heads of both the House and Senate judiciary committees emphasized that bills, to have a chance of passing in time, would need to be clear, well-written, and tight. We expect that we will, by and large, not see this, as these extreme and inane proposals serve a dual purpose - first, to assuage elements of their political base that they are "doing something", and second, to consume our resources and wear us down. What we will have to be most cautious of are items similar to last year's SB428 - a creative attempt in lawfare. One of the presenters suggested that to satisfy Bruen that legislators identify historical analogues as part of the drafting of a bill, and include language to that effect in bills. We assume that if this is acted on that we will see more misstatements of history and of the law, as we did last year when the gun control caucus argued for HB9 with an 18th century Massachusetts law that sought to

prevent house fires. The presenters also proposed insulating their restrictions from what the court might do in future somehow, likely by legislatively justifying restrictions in new ways.

The DPS secretary then gave a reasonably accurate technical presentation on firearms to demystify "semiautomatics, automatics, and assault weapons". The panel noted that, despite the governor's call to ban "assault weapons", that there existed no solid definition of the term, and that the term was political, not technical. The governor was said to be "looking to lean in to the violent crime problem". The panel then briefly discussed the Heller "dangerous and unusual" standard, noting that AR-style weapons are not "dangerous and unusual" - despite that, panel members still called for bans. Division clearly exists on the feasibility of an "assault weapons" ban within the gun control caucus.

The panel then discussed NICS related issues. Members of the gun control caucus clearly feel that there is a place for legislation here, presumably to load more people into "prohibited person" categories or for the state to intervene somehow in NICS Delay or Deny results.

Age restrictions came up next. Despite agreement that "it would be wise to stay away from ownership, even under 18", the gun control caucus feels it will be able to defend a ban for 18-20 year old adults. This is despite restrictions in other states falling like dominoes, and was presented without a discussion of the Verdugo-Urquidez definition of "the people" at all.

Waiting periods seem likely to be a major focus for the gun control caucus next year. While the presenters stressed the "need to ensure that any law is not a prohibition in the form of a regulation", panel members felt that a 7 day wait would be defensible, as would one with a carveout for licensed concealed carrier, or one that put the burden on FFLs to apply no wait period to repeat purchasers. The panel also discussed and seemed favorable towards an additional state-mandated wait for NICS Delay results, while seeming less accepting of a "permit to purchase" scheme. Certain panelists reiterated the idea of an experimental approach to legislating on the topic (throw ludicrous things at the wall and let courts sort it out, with no regard for the harm caused), and the DPS secretary brought up the topic of enhancing information sharing on the subject of gun control here.

Finally, the panel discussed SB428 from this past session and the Protection of Lawful Commerce in Arms Act. The gun control caucus invited a presenter from the Giffords Law Center to brief them on the history of the PLCAA, which went about as you'd imagine. Senator Cervantes, having himself brought SB428, is completely in love with the idea of lawfare and using lawsuits to change behavior in firearms manufacturers and retailers, even floating the idea of enshrining in statute an enhanced ability to sue parents whose children misuse guns. We will doubtless see the return of this lawfare concept.

Finally, the panel held a brief discussion about bump stocks, "ghost guns", and "smart guns". Here, the lack of technical knowledge of the panelists showed that legislating on any NFA issue, homemade firearms, and science fiction technology will be an uphill battle for their caucus.

As always, please feel free to reach out to [legislativeaction@ziarifleandpistolclub.com](mailto:legislativeaction@ziarifleandpistolclub.com) with questions, concerns, comments, or to get involved.
